

For All the World

World Dairy Expo is the last of the 2009 large outdoor agriculture trade shows for our sales team.

At **World Dairy Expo** everything is dairy focused and no other event in the world compares!

It's the international meeting place for the dairy industry. Expo offers the most elite combination of dairy cattle and exhibits in the world.

World Dairy Expo provides a forum where dairy enthusiasts from around the world find the most modern dairy equipment and the newest dairy technology and innovations. They will also

see North America's top dairy cattle compete for honors in seven breed shows.

World Dairy Expo kicked off their 2009 event on September 28th and it will run through Saturday, October 3rd at the Alliant Energy Center of Dane County in Madison, Wisconsin.

Wieser Concrete is proud to support our dairy industry and to exhibit at

World Dairy Expo.

Wieser Concrete continues to bring innovative products to our agriculture professionals designed to provide cost-effective solutions to the challenges of today's agriculture business.

Minnesota Milk Producers-Midwest Expo St. Cloud, Minnesota	December 8-9, 2009

Growing Communities

Wieser Concrete produces precast tanks that enable communities to grow. Many times as business expands in our communities, their expansions call for underground systems that specify precast tanks such as onsite wastewater systems, grease interceptors, holding tanks for fire prevention and many other system designs. **Wieser Concrete** manufactures precast tanks in sizes from 750 gallon to 40,000 gallon that enable our customers to provide the best solution for their client's needs.

Our Spooner team recently delivered and set three (3) 2500 gallon heavy duty holding tanks for an assisted living facility in Superior, Wisconsin. Our customer, **Young Plumbing**, managed this project

including all excavation and hook-up for this onsite system. Our delivery team provided a seamless delivery and setting process that enabled our customer to meet the project timeline and move it to completion.

Our goal at **Wieser Concrete** is to provide you with the most cost-effective solution for your project that enables you to grow your business. Through innovation, quality and service, we continuously strive to make your experience with **Wieser Concrete** as hassle-free as possible with the quality product and service you need and deserve. We understand that your success is our success and we **thank you for being our customer.**
