

Looking dapper for his special day, Dan Kaempf poses for the obligatory photo with his cake before the festivities begin.

Wieser Concrete's competitive advantage has always been the people of the organization. We have been very lucky to have quality people who stay with us for many years. May 14th, 2009 marked the **40-Year Service Milestone** for Wieser employee, Dan Kaempf.

Dan began his career with Wieser Concrete with Wieser Ready-mix. Since then, Dan has served in several capacities and today he is one of our boom truck operators that travel throughout the country delivering Wieser Concrete precast products.

To celebrate this historic event, Andy and Dan Wieser grilled steaks and served dinner for the entire Wieser Concrete Maiden Rock team. It was a grand time for a GRAND employee!!!

Thank you, Dan!

Celebrating 25 Years

On May 26th, 2009, Wieser Concrete Products, Inc. celebrated Yvonne Blodgett's 25-year service milestone. Yvonne joined Wieser Concrete on May 22nd, 1984 as administrative support for the sales team. Yvonne added inside sales to her responsibilities and she continues to serve in that role today.

Yvonne and her family along with all employees at the Maiden Rock location were served a celebration lunch.

Company-wide recognition of service milestones will be formally recognized at the annual Wieser Concrete Christmas Event in December.

Yvonne Blodgett poses for a photo to mark 25 years of service at Wieser Concrete.

Thank you, Yvonne!

We've Come A Long Way

In 1965, **Wieser Concrete** began business making precast septic tanks. At that time, the components of residential septic systems were very basic and our selection met our customers needs. As our customers grew their businesses, we added tanks to meet the growing onsite installation requirements.

Today, **Wieser Concrete** manufactures over 175 different tanks designed to meet the increasing requirements for onsite wastewater systems. With tanks to 40,000 gallons, **Wieser Concrete** can provide the perfect tank solution for any system requirements from single-family homes to large cluster systems for housing developments like the Blue Wing Community Project featured below.

Wieser Concrete tanks are also used for fire protection, grease interceptors and many other non-septic applications. For the latest in tank technology, innovation and quality, you can depend on **Wieser Concrete** to deliver.
